## Introduction to Weathering (W101) Seminar

Wednesday, 25th September 2024 at Q-Lab Europe - Bolton Office

09:00 - 09:30	Registration with Coffee & Refreshments
09:30 - 09:40	Introductions
09:40 – 11:00	<ul> <li>Part 1: Forces of Weathering</li> <li>Sunlight: spectral irradiance and material sensitivity</li> <li>Heat: temperature and thermal cycling</li> <li>Water: relative humidity, dew, and rainfall</li> </ul>
11:00 - 11:15	Coffee Break
11:15 – 12:00	<ul> <li>Part 2: Outdoor Weathering</li> <li>Benchmark outdoor test locations: Florida &amp; Arizona</li> <li>Natural outdoor weathering testing</li> <li>Black box, interior automotive material, and behind-glass exposures</li> <li>Natural sunlight concentrators</li> </ul>
12:00 – 13:00	Lunch
13:00 – 14:15	<ul> <li>Part 3: Accelerated Laboratory Weathering</li> <li>Xenon Arc         <ul> <li>Light delivery: Xenon arc lamps, optical filters, and irradiance control</li> <li>Environment simulation: black panel, chamber air, humidity, water spray</li> </ul> </li> <li>Fluorescent UV Weathering         <ul> <li>Light delivery: fluorescent UV choice of lamps and irradiance control</li> <li>Environment simulation: black panel, condensation</li> </ul> </li> </ul>
14:15 - 14:30	Coffee Break
14:30 - 15:45	<ul> <li>Part 4: Developing Weathering Testing Programs</li> <li>Why Test?</li> <li>Factors affecting correlation between natural and accelerated weathering</li> <li>Fluorescent UV and xenon-arc comparison</li> <li>Weathering test program development</li> <li>Weathering case studies</li> </ul>
15:45 - 16:15	Summary & Conclusions
